

# MASTERTEMP®

## HIGH PERFORMANCE HEATER

Fast, efficient and built to enhance your pool enjoyment.

## BIG PERFORMANCE. SMALL FOOTPRINT.

### Efficiency, fast heating and simplicity in a sleek, compact package.

When you want the soothing experience of warm water, the MasterTemp® High Performance Heater brings you the design features that deliver lower operating costs, easy operation and a long, dependable service life.

MasterTemp heaters are well-known for best-in-class energy efficiency and low emissions, even while heating your pool quickly. They feature an exceptionally compact design for such a high-performance heater, so they fit on smaller, less-intrusive equipment pads. Controls are intuitive and easy to use. MasterTemp heaters are also designed for super-quiet operation to help keep your poolside experience tranquil.

#### Economical and fast

Premix combustion technology for best-in-class efficiency and fast warm-ups; no long waits to enjoy your pool.

#### Enhanced design

Sleek, updated looks with easy-to-use controls.

#### Built to last

Tough, rustproof composite exterior weathers the elements.

Rotatable keypad for easy access in any orientation

Easy-to-use, intuitive controls for operation and diagnostics

Quiet operation keeps your poolside tranquil

Built-in safety features assure system protection and easy diagnostics

Certified for low NOx emissions and outperforms industry standards
